Hosp. Lit.

CONTENTS

No. 1. January, 1944

Functional Organization of the Spinal Cord. *David P. C. Lloyd* 1
Obesity. I. Energy Metabolism. *L. H. Newburgh* 18
Obesity. II. Etiological Aspects. *J. W. Conn* 31
The Cellular Composition of Normal Bone Marrow as Obtained by Sternal Puncture. *Edwin E. Osgood and Arthur J. Seaman* 46
Chemical Methods for the Determination of Death by Drowning. *Alan R. Moritz* 70
The Rôle of the Adrenal Cortex in Physiological Processes. *W. W. Swingle and J. W. Remington* 89
Lipotropic Factors. *E. W. McHenry and Jean M. Patterson* 128

No. 2. April, 1944

The Benign Melituria. *Joseph C. Bock* 169
Extrinsic Factors that Influence Carcinogenesis. *Harold P. Rusch* 177
Distribution of Vitamin A in Tissue as Visualized by Fluorescence Microscopy. *Hans Popper* 205
The Histopathology of Radiation Lesions. *Shields Warren* 225
The Bread Problem in War and in Peace. *Samuel Lepkovsky* 239
The Changes in the Fetal Circulation at Birth. *Donald H. Barron* 277

No. 3. July, 1944

The Anticoagulants Effective in Vivo with Special Reference to Heparin and Dicumarol. *Armand J. Quick* 297
The Hyperpnea of Muscular Exercise. *Julius H. Comroe, Jr* 319
Lactation. *W. E. Petersen* 340
Maintenance of Nitrogen Balance by the Intravenous Administration of Plasma Proteins and Protein Hydrolysates. *Robert Elman* 372
The Functional Organization of the Cerebral Cortex. *Warren S. McCulloch* 390

No. 4. October, 1944

Factors Affecting the Insulin Content of the Pancreas. *R. E. Haist* 409
Physiological Aspects of Human Genetics, Five Human Blood Characteristics. *Herluf H. Strandskov* 445
Vertebrate Smooth Muscle. *Ernst Fischer* 467
Water Exchange. *John P. Peters* 491
